

GRADES
6, 7 & 8

NEW
LESSON
PATH!

10 lessons ~ complete in
as little as 2 weeks

Investigate! Invent! Innovate!
THE LEARNING PARTNERSHIP

Inspire Grade 6, 7 & 8 students to invent creative solutions to everyday problems!

- Ideally suited to **VIRTUAL**, **BLENDED** or **IN-CLASS** learning environments
- **FREE** to educators in publicly-funded schools across Canada, in French or English
- **NEW!** condensed program will turn your students into inventors – while exceeding provincial curriculum requirements
- **NEW!** Flexible, curriculum-aligned lessons are easily integrated into teaching plans
- **EXPERIENTIAL** learning embeds STEAM skills and global competencies
- **FUN** and **EASY TO TEACH** with a dashboard of resources including pre-recorded training, a student activity toolkit, and a global competency journal for students to track their learning

IDEAL for
2021-2022!

EDUCATOR TRAINING

Live & pre-recorded training modules for each lesson, in English or French, set teachers and students up for success!

Curriculum & Training
Partner: Logics Academy

NEW! TEACHING RESOURCES

Flexible set of well-organized, professionally developed lesson plans and student activity toolkit.

NATIONAL INVENTION CONVENTION

Opportunities for students to showcase their work, receive feedback from trained volunteers from the working world, and share their passion for invention!
